REFERENCE LETTER

This is in support of Centre for Social Policy Development (CSPD) who has been our implementing partner for the project *strengthening the services of protection in South Punjab*. The Centre for Social Policy Development (CSPD) is also a member of our network for *Children in Emergencies* and therefore it has been part of our various right-based advocacy campaigns and training programmes.

I found CSPD an extremely committed and diligent organization, for the socio-political empowerment of the marginalized communities, especially religious/ ethnic minorities, children and womenfolk. Undoubtedly, CSPD has been involved in carrying out projects for the socio-political and economic empowerment of women, children, youth and working class. If at one point, the Organization is concerned with the transformation of society, in terms of peace, democracy, governance and citizenship rights, then on the other end, an exclusive programme is being carried out for citizenship/ human rights education of youth and women, since last three years.

I am confident that CSPD would continue its struggle with the same zeal and zest and it has enough capacity to become a dedicated and competent partner of any international organization for the implementation of any rights-based projects. Its project. Please feel free to contact me, if you need any information about the CSPD.
